Address: Dhaka , Bangladesh

PROFESSIONAL SUMMARY

Junior Full Stack Developer with hands-on experience building **REST APIs** and full-stack web applications using **Node.js, Express.js, TypeScript, PostgreSQL, MongoDB, Prisma, JWT authentication, Redis, and React/Next.js.** Experienced in designing API endpoints, authentication and authorization, database operations, role-based access control, validation, error handling, search/filtering, and third-party **API** integration. Strong understanding of **Git/GitHub**, clean code, reusable architecture, and debugging application issues. Interested in building scalable backend services and growing within a collaborative engineering team.

TECHNICAL SKILLS

Frontend : React.js, Next.js, TypeScript, JavaScript, Redux Toolkit, Tailwind CSS, Material UI, Shadcn UI

Backend : Node.js, Express.js, REST API, JWT, Zod, Prisma, Redis

Database : PostgreSQL, MongoDB, MySQL, Mongoose

Deployment: Vercel, VPS, Server Deployment, CI/CD Fundamentals

Tools : Figma, Postman, VS Code, Git, GitHub, Vercel, Browser DevTools

AI Development: OpenAI Codex, Claude Code, AI-Assisted Development

Soft Skill: Teamwork, Quick Learner, Responsibility, Communication, Problem Solving

EXPERIENCE

Deed Bangladesh IT Limited — Full Stack Developer | Dec 2024 – Jun 2026 | Remote

- Built and maintained full-stack applications using **Next.js, React.js, Prisma, MongoDB, Express.js MySQL, and MongoDB**.
- Designed and integrated **REST APIs**, improving system scalability and performance.
- Collaborated with cross-functional teams to deliver features such as **authentication, dashboards, and data management modules**
- Enhanced database queries and optimized backend logic, reducing server response times by 50%.

PROJECTS

1.Blog Web Application – Live Demo | Client

- Full Stack Developer | Built with Next.js, Prisma, and MongoDB.
- Developed a responsive and modern UI with Next.js and Bootstrap.
- Implemented user authentication (login, registration, reset password).
- Built comments & reply system, user dashboard, admin dashboard, and a content management system (CMS).

Major Features: User authentication • Role-based access control • Blog post management • Comments & replies • User dashboard • Admin dashboard • CMS • Password reset • Responsive design

2. Inventory Management System – Live Demo | Client

- Full Stack Developer | Built with **Next.js, Prisma, and** MongoDB
- Designed front-end using Next.js and Bootstrap, creating an intuitive user interface
- Implemented **authentication features** including login, registration, and password reset.
- Developed an **admin dashboard** with search and text filtering functionality.

Major Features: User authentication • Product & category management • Customer & supplier management • Purchase & sales management • Expense & returns tracking • Reports • Search & filtering • Admin dashboard

3. FixItNow — Home Service Marketplace —Live Demo | Client | Server

- Full Stack Developer | Built with **Next.js, Node.js, Express.js, TypeScript, PostgreSQL, Prisma**, and JWT.
- Developed a responsive and modern service marketplace interface using **Next.js, Tailwind CSS, and shadcn/ui**.
- Implemented **role-based authentication and authorization** for Customers, Technicians, and Admins.
- Developed service discovery, booking, payment, review, and administrative management features.

Major Features: Role-based access (Customer/Technician/Admin) • Service discovery & booking • Secure payments • Reviews & ratings • Admin dashboard • Technician management • Authentication & authorization • Responsive UI

EDUCATION

Bachelor of Social Science (BSS), National University — Dhaka, Bangladesh | 2018–2021 | CGPA: 3.00/4.00
HSC,Shariatpur Govt. College — Shariatpur, Bangladesh | 2015–2017 | CGPA: 3.50/5.00

LANGUAGES

Bengali — Native | English — Working Proficiency
